Personal Injury Protection

A Step by step guide to opening your claim

1. Call your insurance company to report the accident.
2. Ask your insurance company to confirm that you have PIP and the amount.
3. Get your claim number, the address, and phone number for the claims office.
4. Call the claims office and speak to the adjuster assigned to your claim. Ask them to mail you a PIP Application, Attending Physician's Report and Salary Verification Form to you as soon as possible.
5. Upon receipt, complete the PIP Application and return it to your adjuster as soon as possible.
6. Give the Attending Physician's Report to your doctor to complete and return to your adjuster.
7. If you have missed work: Give the Salary Verification Form to your employer to complete and return to your adjuster.
8. Provide your claim number, adjuster name, claim office address and phone number to all your health care providers.
9. Instruct all of your health care providers to bill your PIP directly, and to include copies of their chart notes and/or reports for each treatment you reports.
10. You can always meet with an attorney to learn more about your rights and about PIP coverage if you have questions or concerns or call us at (425) 889-2882.

What is Personal Injury Protection?

Personal Injury Protection is coverage under your auto insurance policy that will pay medical bills, wage loss and household services immediately after your accident. You can PIP for chiropractic, massage therapy, and any other healthcare you may need to recover from your accident. Most PIP plans pay medical bills for up to 3 years or \$10,000.00. PIP can pay income for missing work after an accident, and has no deductible or co-pay requirement. PIP is no-fault, so it does not matter who caused the accident. PIP must be included in your policy unless you reject it in writing. Your insurance company cannot raise your rates or cancel your policy for using PIP.
